

MicroRevive

Soil Inoculant to support robust plant growth

Promotes nutrient solubilization, root growth, and plant establishment

Supports diverse soil microbial ecology

Made with Fish Manure

CONTAINS NONPLANT FOOD INGREDIENT(S)

GUARANTEED ANALYSIS - SOIL AMENDING INGREDIENT(S)

Active Ingredient(s):

Rhizophagus intraradices	6x10 ³ CFU/mL
Glomus mosseae	6x10 ³ CFU/mL
Pisolithus tinctorius	6x10 ³ CFU/mL
Rhizopogon luteolus	6x10 ³ CFU/mL
Trichoderma viride	6x10 ³ CFU/mL
Bacillus licheniformis	5.5x10 ⁶ CFU/mL
Paenibacillus polymyxa	5.5x10 ⁶ CFU/mL
Pseudomonas putida	5.5x10 ⁶ CFU/mL
Total Other Ingredients (inert as nonplant food): 99.9%	

Ingredients

Fish manure

Directions

Shake Well before use. Store in a cool and dry area. Avoid prolonged exposure to direct sunlight.

Suitable for use in soil-applied, irrigation-system, and hydroponic applications.

Apply at a rate of 1tsp per gallon of water, as needed.

Combining with other inputs (fungicides, insecticides, or chemical fertilizers) is not recommended.
